Patent No.: 7,672,394

Inventor: Jinsong DUAN et al. Art Unit 2611

Appln. No.: 10/573,688 Exr. J. Joseph

Filed: March 27, 2006 Conf. No. 7149

For: TRANSMISSION APPARATUS AND TRANSMISSION METHOD

REQUEST FOR CERTIFICATE OF CORRECTION
PURSUANT TO 35 USC 254 (OFFICE MISTAKE)

Honorable Commissioner of
Patents and Trademarks
Washington, DC 20231

Sir:

A Certificate Of Correction of the above-captioned patent is respectfully requested.

Grant of this Request is respectfully requested in accordance with the provisions of 35 USC 254 which states:

35 U.S.C. 254 Certificate of correction of Patent and Trademark Office mistake.
Whenever a mistake in a patent, incurred through the fault of the Patent and Trademark Office, is clearly disclosed by the records of the Office, the Director may issue a certificate of correction stating the fact and nature of such mistake, under seal, without charge, to be recorded in the records of patents. A printed copy thereof shall be attached to each printed copy of the patent, and such certificate shall be considered as part of the original patent. Every such patent, together with such certificate, shall have the same effect and operation in law on the trial of actions for causes thereafter arising as if the same had been originally issued in such corrected form. The Director may issue a

corrected patent without charge in lieu of and with like effect as a certificate of correction.

In the present patent, claim 1, column 8, line 27, should read "assigned to each symbol in the data assigner, wherein:", as shown in, for example, the Amendment filed July 20, 2009.

However, claim 1, column 8, line 27 in the Letters Patent which issued on March 2, 2010, incorrectly reads "assigned to each symbol in the data assigned, wherein:".

In the present patent, claim 2, column 8, line 47, should read "is rotated by a predetermined angle that is common to all", as shown in, for example, the Amendment filed July 20, 2009.

However, claim 2, column 8, line 47 in the Letters Patent which issued on March 2, 2010, incorrectly reads "is rotated b a predetermined angle that is common to all".

It is submitted that issuance of a Certificate of Correction is warranted under 37 CFR 1.322 and MPEP 1480 in that the above-noted error is consequential, is not of a minor typographical nature, and is not readily apparent to one skilled in the art.

Grant of the attached Request for Certificate of Correction is respectfully solicited.

Respectfully submitted,

/James Edward Ledbetter/
